APPROVED FOR RELEASE 7408.
DATE: AUG 2004

Memo No. 7.

From: 7404/7417.

8th January, 1945.

Under separate cover I am forwarding 100 .45 Colts together with 4,050 rounds of ammunition (HG.732-745). These were requisitioned by 7498 and we have obtained them from the stockpile of our American colleagues.

7498 will be shortly returning to the Field via your town and you may care to hold these for a few days as he intends to call on you and this would give you an opportunity to discuss any questions of distribution that he may have in mind.

P.S. Since writing the above 7498 has been in to see me and tells me that he is travelling up to your town to-day. He may, therefore, call in to see you tomorrow when I am there.
